Professional Summary

Motivated Software Engineer and Java Full Stack Developer with hands-on experience in frontend development and full-stack application development. Proficient in Java, JavaScript, React.js, HTML, CSS, REST APIs, MySQL, and Git/GitHub. Currently working as a Frontend Developer Intern at Samriddhi Anveshana, contributing to a React-based Office Management System. Strong problem-solving skills, quick learner, and eager to contribute to high-quality software development teams.

Technical Skills

- Programming Languages: Java, JavaScript, TypeScript
- Web Technologies: HTML, CSS, Bootstrap, React.js
- Database: MySQL
- Tools & Technologies: Git, GitHub, Vite, React Router

Internships

- Frontend Developer Intern** | Samriddhi Anveshana | Jul 2026 – Present
- Developed and enhanced responsive Admin and Client dashboards using React, JavaScript, HTML, and CSS with reusable UI components.
 - Contributed to a React-based Office Management System (OMS) supporting meeting-room booking, company management, billing, and visitor management.
 - Implemented and enhanced meeting-room booking functionality, including availability checks, booking validation, cancellation, and transaction-based booking to prevent duplicate reservations.
 - Worked on admin modules including meeting rooms, companies, billing/invoices, dashboards, and visitor passes.
 - Used Git/GitHub, Vite, React Router, and responsive CSS during application development and deployment.
- Ai Data Annotation Specialist** | Student Tribe | Mar 2025 – May 2025
- Analyzed video content and created structured annotations to support training and evaluation of AI and machine learning models.
 - Developed prompts describing on-screen activities, character actions, camera movements, interactions, and visual elements for AI model training.
 - Performed frame-by-frame analysis to capture scene transitions, object relationships, behavioral patterns, and visual nuances.
- Java Full Stack Web Developer Intern** | QEdge Technologies | Dec 2024 – Apr 2025
- OpenAI GPT** | Suven consultants & Technologies pvt.ltd | Jun 2023 – Jul 2023

Projects

- Code Editor** | GitHub – Live Demo
- Developed a web-based code editor with live preview functionality using HTML, CSS, and JavaScript.
 - Implemented Light/Dark mode using CSS variables and JavaScript DOM manipulation.
 - Integrated Font Awesome icons and modern UI design techniques to create a clean and responsive user.
 - Implemented dynamic theme-based iframe output styling based on the selected display mode.
- Insect Game** | GitHub – Live Demo
- Developed an interactive browser-based insect-catching game using HTML, CSS, and JavaScript.
 - Implemented Easy, Medium, and Hard difficulty levels with dynamic insect spawning and movement.
 - Added timer, score tracking, best-score persistence using Local Storage, pause/resume, and sound effects.
 - Designed a responsive and user-friendly interface for desktop and mobile devices.

Certifications

- Java Full Stack – QEdge technologies
- Core Java – Udemy
- Introduction to JavaScript – Udemy

Education

B. Tech in Computer Science (Internet of Things)
Visvodaya Engineering College, Sep 2020 – May 2024
Intermediate – MPC Narayana Junior College, Aug 2018 –
Mar 2020
SSC – Matriculation Sri Chaitanya Techno
School, Mar 2018
